

POST-FRAME CONSTRUCTION

IS THE WAY TO A BETTER BUILDING

**VERSATILE, ECONOMICAL, QUICKLY
CONSTRUCTED, DEPENDABLE**

From barns, garages and agricultural buildings to commercial, community and residential structures, post-frame construction is the answer. What was known as the old 'pole barn' of yesterday has now evolved into a viable method of construction that is not only fast, energy efficient and affordable, but beautiful as well.

Post frame can be easily customized to meet your individual building needs. Whether you're looking to add on to an existing structure or start from scratch, your post-frame contractor can work with you to accommodate your unique specifications.

Post-frame construction uses traditional concepts improved upon with the latest in engineering technology that creates a sophisticated, visually appealing structure. Considerable engineering research ensures code-complying, reliable, durable buildings of all uses and styles.

What you want, when you want it, and how you want it — that's postframe!

SUPERIOR IN THREE WAYS

Post frame is superior to conventional steel or masonry construction in three ways. First, you will enjoy increased energy efficiency and the lower heating and cooling bills that go with it for years to come. Second, the wide range of attractive and flexible design features are simply unmatched. Third, and perhaps most important, post frame provides more strength and structural integrity for your building dollar.

WHATEVER THE NEED - POST FRAME IS THE SOLUTION!

Our buildings are renowned for their excellence in engineering, design, strength and beauty. We offer a wide variety of building designs to meet any need, as well as an endless array of color combinations to provide that distinctive look you will be proud of for years to come. From machinery storage to garages, environment-controlled livestock and layer housing to quick-marts, or even an addition to an existing facility, let us show you why post frame is the answer you've been looking for.

A variety of post-frame buildings are pictured to illustrate how our versatility and creativity can help personalize your building to your particular taste.
